V	VARNING:
Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or Issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an abandoned application file and therefore are not publicly available.

### Statement Establishing Unintentional Abandonment and

#### Delay in filing a Petition under 37 CFR 1.137(b)

Sir:

Applicant contends that the application identified above was unintentionally abandoned and herein files this Statement in support of a Petition for Revival under 37 CFR 1.137(b).

Applicant received a Notice of Abandonment mailed April 17, 2006 that stated that abandonment was due to Applicant's failure to timely pay the required issue fee and publication fee within the statutory period of three months from the mailing date of the Notice of Allowance which was September 30, 2005.

Payment instructions for payment by Credit Card were submitted on December 14, 2005, for the issue fee of \$700, and the publication fee of \$300, totaling \$1000.

Applicant has now examined the data on PAIR for this application and discovered that the forms were timely received, the credit card transaction was declined, and apparently attempts by the USPTO to contact the Applicant on December 20, 2005, were unsuccessful because the telephone did not work. Applicant finds this difficult to believe and was unaware of any

telephone faults on this day. No further attempts were made by the USPTO to contact the Applicant.

Applicant asserts therefore that he made every effort to timely pay the issue fee and publication fee.

Respectfully submitted

Jonathan Sidney EDELSON
